
PROFILE

Cybersecurity student and founder of Ech Tit with interests in digital forensics, security research, networking, software development, and practical security education. Seeking cybersecurity internship, SOC analyst, junior security analyst, digital forensics, and security tooling roles.

SELECTED PROJECTS

AI Medical Coding Assistant

NEXT.JS / AI / SUPABASE

Healthcare workflow for uploading patient cases, generating ICD-10 and ICD-9 suggestions, reviewing diagnoses, managing case status, and maintaining an audit trail.

MFU Election System

NODE.JS / EXPRESS / MYSQL / RBAC

Role-based election platform for voters, candidates, and administrators with session authentication, one-person-one-vote enforcement, candidate management, and analytics.

Suspicious Behavior Detection

PYTHON / SECURITY ANALYTICS

Security analytics workflow that models system activity as matrices, applies weighted risk scoring, and flags anomalous users.

EDUCATION

Computer Engineering

Mae Fah Luang University

CURRENT

NCC Level 5 Diploma in Computing

NCC Education / Twinkle University

NCC Level 4 Diploma in Computing

NCC Education / Twinkle University

CREDENTIALS

- CRTOM - red team operations
- CRTA - red team analysis
- C3SA - cybersecurity analysis
- ICTTF - cyber threat training
- L4DC & L5DC - NCC Education
- CS50x - computer science foundations

SKILLS

DIGITAL FORENSICS	SECURITY RESEARCH	THREAT ANALYSIS	NETWORKING	PYTHON	JAVASCRIPT
JAVA	C#	SHELL	LINUX	GIT	WEB APPS
